Course 7017:
DeltaV Implementation II

September 26 – 30, 2022 (Schaumburg, IL)
Cost: $4250.00 CEUs: 3.2

Overview

During the 4-1/2-day course, the student will be able to identify function block structures, interpret function block status values, design error masking, define nodes, and configure class-based control modules using the Command-Driven algorithm.

This course includes access to a virtual DeltaV system to practice and review course workshops complete with brief recorded demonstrations available after course completion. Create custom faceplates and dynos, configure modules with analog control palette blocks and create simulation for test purposes.

This course includes access to brief recorded demonstrations available after course completion, so students can review exercises completed in class.

Topics

- Function Block Structures & Status Values
- Analog Control Palette Blocks PID Bias/Gain, Dead time, Ratio, Signal Characterizer, Splitter
- HART® Inputs and Outputs
- HART Device Alarms
- Unit Alarms
- DeltaV Tune with InSight
- Device Control Options
- Class Based Control Modules
- Configuration of Equipment Modules for Supervisory Control
- Custom Faceplates and Dynamos

Audience

This course is for process control engineers responsible for designing, implementing and testing configuration using the DeltaV system.

Prerequisites

Course 7009, DeltaV Implementation I

Course 7017:
DeltaV Implementation II
Location:
Novaspect Training Center
1124 Tower Road
Schaumburg, IL 60173
Date: September 26 – 30, 2022
Time: 8:00 AM to 4:30 PM
Cost: $4250.00
Meals:
Breakfast & lunch will be provided.
More Information:
1.877.509.8020

Registration: Purchase order or payment is required at the time of enrollment. PO, check, or credit cards payable to Novaspect. To Enroll: Register online at: http://www.novaspect.com/education.html or call the Novaspect Hotline at 1.877.509.8020.

Cancellations: If your plans or budgets change, you may cancel your reservations up to 14 calendar days prior to the start of the course without incurring a cancellation charge. Limited enrollment makes it necessary to charge 50% of the full tuition for cancellations received during the 14 days prior to the start of the course, and full tuition for failure to attend without canceling. Substitutions are accepted until the first day of class.
