Dear Valued Customer:

On April 28, 2017, Emerson purchased the Valves & Controls business unit from Pentair. The combined portfolio offers you access to the largest selection in control valves, pressure management, isolation valves such as triple offset, butterfly, gate, globe, ball and check valves, in addition to actuation technologies. These include industry-leading product brands such as Anderson Greenwood, Crosby, Keystone, Vanessa, Clarkson, Yarway and many others. As part of the integration efforts, we have made changes in the representation of some product lines, specifically in the Pressure Management and Isolation Valve categories.

We are pleased to announce that effective July 5th, Novaspect is your new provider for former Pentair Valves & Controls products and support. In addition, Novaspect will have the benefit of Emerson's enhanced global network of more than 300 service centers to support shut downs, turnarounds, outages and other maintenance needs.

Novaspect brings over 80 years of representing Emerson in the Upper Midwest region. We are confident in their ability to extend these capabilities to support our newly acquired product lines. Please feel free to contact them immediately using the contact details below:

Novaspect, Inc.
1124 Tower Road
Schaumburg, IL 60173
877-509-8020

For all current and pending purchase orders in execution, Emerson will remain as the point of contact to deliver execution and shipment support until completion. We thank you in advance for your continued support. The combination of Novaspect and Emerson will continue to provide unparalleled support in the region.

We look forward to serving you in the future.

Sincerely,

A handwritten signature in cursive script that reads "John Wilson".
