

AN INVITATION FROM NOVASPECT & EMERSON

Novaspect and Fisher Controls are pleased to invite you to join our two-day trip to Emerson Innovation Center in Marshalltown, Iowa. REGISTER TODAY!

The Emerson Innovation Center is 136,000 square-foot state-of-the-art \$30 million educational, research, and testing facility, designed to help customers tackle the toughest engineering challenges facing today's process manufacturing and energy industries.

Experience tours, hands-on equipment demonstrations and informative discussions to include:

- **Control Valve 101 Overview**
- **Tour of the world's largest "Flow Lab" where valves are tested under plant conditions to ensure production reliability**
- **Recently launched: DVC7K Digital Valve Controller, 4400 Position Transmitter and the DPC2K Digital Process Controller**
- **Predictive Maintenance - Getting the most out your FIELDVUE Digital Valve Controllers**
- **Latest in Noise-Reducing Trim Technology and how 3-D printing made it possible**
- **Cavitation demo - Damaging effects and how Fisher Trims eliminate damage**
- **High Cycle Testing for PSA reliability: Fluid force on plug stem assemblies established by test and known fatigue failure risks**
- **Optimized Digital Valve (ODV) Demonstration: How we can optimize performance of your control valve assembly in difficult applications**
- **Tour of Fisher's Governor Road Manufacturing facility where some of the largest, most complex control valves in the world are built**
